ABOUT ME

Information Systems Engineer with 3+ years in applications development & support, systems analysis, and ERP integration (SAP FI/CO, ABAP). Deliver end-to-end solution design, testing (unit, QA, E2E), and documentation; experienced in C#, ASP.NET, Python, SQL, and data tooling (Power BI). Comfortable liaising with network/server teams, vendors, and business stakeholders. Fluent in English & Portuguese.

Keywords: Business Analysis; Systems Analysis & Applications Architecture; ASP.NET, C#, ABAP, SQL, Python; API development & integration; ERP integration; Microsoft Fabric (OneLake); Power Platform (AI Builder, Power Automate, Dataverse, Power Apps); preventive maintenance; application support; IT asset management; user manuals; documentation; quality assurance.

WORK EXPERIENCE

UNITEL Luanda, Angola

Information System Engineer

09/2022 – Current

Proficient in conducting comprehensive solution analysis and development.

Experienced in:

- Identifying and gathering user requirements;
- Performing functional analysis and proposing solutions, with a strong focus on integration within system architectures;
- Leading test execution, including unit, quality, and end-to-end tests;
- Managing vendor relationships and overseeing external teams for functional design and implementation of solutions;
- Document management, including the maintenance and updating of comprehensive solution documentation;
- Proficient in SAP FI/CO and adept in applying machine learning techniques using Python.

Core Skills (ATS-aligned):

- Business & Systems Analysis: requirements elicitation, functional specs, solution architecture, process mapping
- Applications Development: C#, ASP.NET, Python, ABAP, SQL; REST/OData APIs; code reviews; CI/CD basics
- ERP Integration: SAP FI/CO (with MM/SD exposure); BAPIs/IDocs; data interfaces; configuration support
- Application Support & ITSM: incident/change management, knowledge base/runbooks, SLA tracking, test plans & UAT
- Data & Microsoft Stack: Power BI;
- Governance & Ops: vendor management, documentation (user guides, SOPs), asset/CMDB co-management

Nervi - Indústrias de Automação, Lda. Luanda, Angola

Co-founder & Executive Director

03/2023 – Current

Co-founded Nervi to deliver affordable smart home and agri-tech solutions in Angola.

Coordinated installation of 50+ smart home systems, focusing on usability, partnerships, and rollout.

Led business development efforts, including client prospecting, partnership negotiation, and identification of new market segments.

Contributed to commercial strategy, investor materials, and operational planning.

International Business Consulting Luanda, Angola

Partner & IT Lead

16/07/2024 – Current

Partner at a boutique consultancy focused on facilitating foreign direct investment and international partnerships in Angola, Portugal and DRC.

Led the digital transformation of internal processes and client-facing tools, including website modernization, CRM structuring, and data flow automation.

Supported business prospecting efforts, identifying strategic opportunities in sectors like energy, infrastructure, and technology.

Represented IBC in high-level networking events and helped organize business forums to attract investors to local projects.

Advised on project documentation, pitch preparation, and digital strategy for cross-border ventures.

Leadership in Public Management Texas Tech University

The Mandela Washington Fellowship is the flagship program of the U.S. Government's Young African Leaders Initiative (YALI). Each year, it brings young African leaders aged 25–35 to the United States for six weeks of academic and leadership training at top U.S. universities, followed by professional networking and development opportunities. Fellows are selected based on their track record of impact in public service, business, or civic engagement, and the program aims to empower them to drive positive change across Africa.

PMI Africa Conference

The largest Project Management event in Africa.

PROJECTS

07/2023 – 03/2024

UANA - Dynamic Campaigns

Unitel's UANA project is centered on intelligent algorithms that analyze customer behavior patterns in real-time, aiming to increase the number of conversions by at least 30%. The goal is to create highly personalized and effective marketing campaigns. By harnessing the power of machine learning, the UANA project not only enhances the precision and relevance of marketing strategies but also significantly improves customer engagement and satisfaction.

05/2023 – 09/2023

Machine Learning for Anomaly Detection - Unitel Money

This project applies sophisticated machine learning algorithms to detect outliers in UNITEL Money, aiming to increase the accuracy of anomaly detection by at least 60%. It employs Isolation Forest for its proficiency in quickly isolating anomalies in complex datasets, alongside Autoencoders which are instrumental in identifying deviations from normal transaction patterns by learning and decoding the data intricacies.

HONOURS AND AWARDS

07/2025 Global Center on Adaptation

In-Country Focal Point

Appointed as the In-Country Focal Point for Angola under the Youth Adaptation Network (YAN), a flagship initiative of the Global Center on Adaptation (GCA). In this role, I serve as a national representative, mobilizing youth engagement in climate adaptation, coordinating country-level actions, and promoting local implementation of global adaptation agendas.

Responsibilities include organizing youth-led activities, strengthening local partnerships, and contributing to regional and global climate dialogues.

03/2025 U.S. State Department

Mandela Washington Fellowship for Young African Leaders

Selected for the **Mandela Washington Fellowship 2025**, a highly competitive 6 weeks U.S. government program recognizing emerging African leaders. Chosen for my contributions in **technology, entrepreneurship, and sustainability**, reflecting a strong commitment to innovation and community impact.

23/11/2023 Unitel

Unitel Innovation Challenge Winner

Innovation Challenge is an internal competition aimed at challenging employees to create a project or disruptive/innovative solution. Unity, teamwork, and communication formed the foundation for victory. Our winning project was UANA.
